PROFESSIONAL SUMMARY

Frontend Developer currently enrolled in **SMIT's Full Stack MERN Development Program**, with a strong foundation in **HTML, CSS, JavaScript, Bootstrap, TypeScript**, and **Firebase**, and currently working with **React.js**. Experienced in building **responsive, user-centric web interfaces**, integrating REST APIs, and converting UI designs into functional web applications. Passionate about clean code, modern UI practices, and continuous learning. Actively seeking a **Frontend Developer role** where I can contribute to real-world projects and grow professionally.

TECHNICAL SKILLS & EXPERTISE

- Frontend Development:** HTML5, CSS3, JavaScript (ES6+), Responsive Web Design (Mobile-First), Bootstrap 5, TypeScript, React.js (Functional Components, Hooks – in progress).
- Backend / Cloud (Basic):** Firebase Authentication, Firestore Database, RESTful API Integration.
- Tools & Workflow:** Git & GitHub, VS Code, Chrome DevTools, Figma (UI reference & implementation).

WORK EXPERIENCE

Frontend Developer (Trainee) | Saylani Mass IT Training (SMIT) | April 2025 – Present

- Developed responsive and accessible web interfaces using **HTML, CSS, and JavaScript** following mobile-first principles.
- Built reusable UI components using **Bootstrap** for consistent design.
- Implemented basic **Firebase Authentication and Firestore** for real-world practice.
- Integrated REST APIs to dynamically fetch and display data.
- Managed and maintained projects using **Git & GitHub**.
- Delivered multiple hands-on frontend projects as part of structured MERN training.

PERSONAL PROJECTS

Weather App

- Developed a responsive web application that fetches and displays **real-time weather data** using external APIs.
- Implemented dynamic UI updates, error handling, and responsive layouts for mobile and desktop devices.

GitHub User Analytics Dashboard

- Built a data-driven dashboard using **GitHub REST API** to display user profiles, repositories, and activity insights.
- Improved performance and UI clarity through efficient DOM manipulation.

E-Commerce Interface

- Designed a dynamic e-commerce frontend using a **mock REST API** for product listings and filtering.
- Focused on clean UI/UX, responsive grid layouts, and real-world shopping flow simulation.

Attendance Management System

- Created a frontend system for attendance tracking with add, search, and update functionality.
- Implemented structured form logic and local data management with a focus on usability.

EDUCATION

Intermediate (Pre-Engineering) | Ziauddin University, Karachi | 2022 – 2024

CERTIFICATES

- HTML, CSS, JavaScript Certificate** – Cisco
- Coding Night Participation Certificate** – SMIT
 - Completed a high-intensity 12-hour hackathon focused on rapid problem-solving and frontend development.
